WONDER FANNING MILL

One of the many leading lines handled by the

Cockshutt Plow Co.

LIMITED

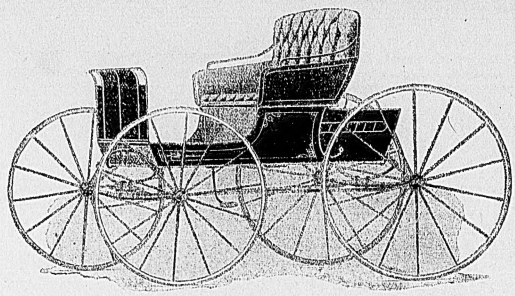

Unequalled for taking wild oats out of wheat. Has 15 sieves all made of stout sheet zinc. The screens differ in the shape and size of the perforations so as to handle all kinds and sizes of grain, wheat, barley, oats and flax. Zinc sieves do not rust nor spread like wire, and permit of great accuracy in gauging the size of the perforation even to one thousandth part of an inch. Other important features are the internal arrangement of the screens which keeps wild oats lying flat so they will be screened off, the complete arrangements for regulating the feed, the wind, and the shake of the upper and lower shoes.

Owing to variation in the size of the wheat berry in different seasons and localities, two sizes of wheat screens are made. Those for plump, full sized wheat are now furnished standard and are supplied on all mills unless the slightly smaller mesh is specially required and ordered.

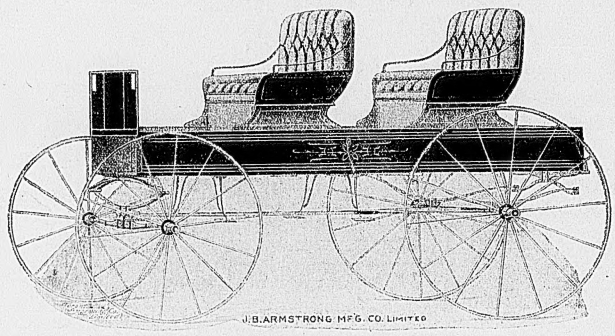

All "Wonder" mills are furnished with extra barley gang included in the price, whereas, with other makes, they are charged extra.

THE CONTROL OF THE BOVINE TUBERCULOSIS

The issue of the report of the International Commission on the Control of Bovine Tuberculosis is of sufficient interest at the present time, particularly in view of the active public demand for some definite and authoritive pronouncement in consideration of the whole situation as regards Bovine Tuberculosis, in its relation to the welfare of the Live Stock industry and to its influence on public health. The economic importance of the subject has occasioned a very great deal of discussion in scientific and agricultural circles and has led to the adoption by various legislative and municipal bodies of measures for the suppression and eradication of this great scourge of domesticated animals and for the protection of the people against infection through the consumption of diseased meat, or polluted milk.

The report referred to embodies the deliberate conclusions of just such an official and representative delegation and both farmers and the public generally are to be congratulated in having now placed before them in most concise and readable form a statement containing an epitome of the researches of the commission and in the recommendations which it has at length determined to make. The prevalence of the disease and the consequent loss to the breeders, as well as to the now acknowledged danger to public health are not minimized but gravely acknowledged and seriously considered.

Compulsory slaughter of infected animals is not advocated, though the destruction of those showing clinical symptoms of the disease is advised. Compulsory testing even is not insisted on, except in herds where the disease is known to exist, though the usefulness of tuberculin, as a reliable diagnostic agent, when properly administered, is confidently affirmed. The commission bases its great hope of ultimate success in accomplishing the intention of whatever legislation may be enacted on the co-operation of the breeders of live-stock in the policy of rearing healthy herds by protecting the young from contagion of any sort. It is unnecessary to enter into a further discussion of the details of the report of the commission, as a copy may be easily obtained by any reader. It may be obtained by addressing the Veterinary Director General, Department of Agriculture, Ottawa, Ont.

APRIL ROD AND GUN

All anglers will heartily welcome the April issue of Rod and Gun in Canada, published by W. J. Taylor, Limited, Woodstock, Ontario. As usual this number heralds the approach of the fishing season and gives all those who have waited patiently for a renewal of those pleasures with rod and line, added joys of anticipation of the good time now so near. A beautifully illustrated article of the camping and fishing trip on the French River is followed by an equally good account of a similar outing in Prince Edward Island, the gem of the Gulf of the St. Lawrence. Many other good things are to be found in the same issue and sportsmen who may not be able to join in all the festivities of fishing with the same enthusiasm as the devoted angler will find that they are not overlooked. There is something to suit all and if the angler is, for the time, the most favored, the hunter knows his turn will come and can in the meantime find much that is of particular interest to himself. Sportsmen never fail to find something to suit their tastes in each issue of Rod and Gun.

FOR BALD HEADS

A Treatment That Costs Nothing If It Fails

We want you to try three large bottles of Rexall "93" Hair Tonic on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy, and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on bald heads, except where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done for thousands of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50c. and $1.00. Remember, you can obtain Rexall Remedies in this community only at our store. This Concrete Root Cellar Costs Less Than Wood and is Much More Durable

Cement is particularly adapted to the construction of Root Cellar floors and walls.

Experience proves that for the farmer, Concrete is superior to wood in every point of comparison.

Concrete permits of a desirable degree of coolness without freezing. There is no question as to its durability. Concrete lasts, not for years, but for ages; and needs no repair.

Anyone who has scooped vegetables from the old plank floor will appreciate the fact that Concrete offers a smooth, continuous surface with no projecting plank ends or nails to damage the scoop or ruffle the temper of the scooper.

The various uses to which Concrete may be profitably put, on the farm, are plainly and simply set out in our 100-page book,

"What the Farmer Can Do With Concrete"

which shows how the following farm buildings and utilities can be constructed of concrete:—

Barns, Cisterns, Dairies, Dipping Tanks, Foundations, Fence Posts, Feeding Floors, Gutters, Hens' Nests, Hitching Posts, Horse Blocks, Houses, Poultry Shelter Walls, Stables, Stairs, Stalls, Silos, Tanks, Troughs, Walks, and so forth.

Send for it—it's free—though it regularly sells for 50c. Write to-day.

You may send me a copy of "What the Farmer Can Do With Concrete."

INSPECTOR FITZGERALD DEAD

Regina, Sask., April 18—A R. N. W. M. P. Patrol which left Dawson City in charge of Corporal Denistoun on February 28th last, for Ft. McPherson came across the bodies of Constables Kinney and Taylor some thirty-five miles out from Fort McPherson, and at a distance of twenty-five miles from the Fort, they discovered the bodies of Inspector Fitzgerald and ex-Constable Carter! All the bodies were taken to Fort McPherson where they were buried.

The above official information was received by Commissioner Perry at the R.N.W.M.P. headquarters here by telegraph from Dawson City yesterday. The dispatch also reports that information had just been received from Fort McPherson that Sergt. Selig had died at Herschel Island. No details have yet been received by the commissioners of this tragedy, which is one of the worst in the history of the Mounted Police Force. The commissioner does not expect any further word until a report by mail is received from Dawson City.

Asked if he had any theory as to what had happened, the Commissioner stated he had not, but assumed that Inspector Fitzgerald, who had been ordered to make the patrol from Fort McPherson to Dawson City with his party must have got part way to Dawson and been compelled to return for some reason, and that death had overtaken them before reaching Fort McPherson.

Corp. Denisoun's patrol, which had been sent out in an endeavor to locate Inspector Fitzgerald's party, made the trip from Dawson City to Fort McPherson and back again, a distance of nearly one thousand miles in the record time of forty-two days, the journey being entirely by dog train.

Inspector Fitzgerald was a Nova Scotian by birth, about forty years of age and unmarried. He joinad the force as constable about twenty years ago, thus practically spending his whole life in the service. He rose through all the ranks and was appointed inspector in December, 1909. Inspector Fitzgerald had six or seven years service in the far north and his experience in the northern parts of the country had been of a very varied character. He accompanied Supt. Moodie on the Yukon patrol in 1897 and also accompanied the present Senator Ross, in charge of the escort, in making treaties with the northern Indians in the Peace River district.

Speaking to the Leader of the late Inspector, Commissioner Perry said he was a particularly fine northern traveller, a man of great resource and splendid physique and was looked upon as one of the best all-round officers in the force. His untimely and tragic death has cast a gloom over the headquarters.

Inspector Fitzgerald was well known in Edmonton and the district. Many years ago he was stationed in the city and also for a period at Wetaskiwin. Last fall he spent several days in Wetaskiwin on his way east for a vacation, after a long stay in Herschel Island, in the Artic Circle. It was at this time that he was offered promotion, but preferred to return to the far north where he had spent several years. It was during his stay on Herschel Island that he stamped out the illicit trade of liquor conducted by the whalers with the Esquimaux.

BATTLE LAKE

(Intended for last week)

A temperance lecture was held on April 9th at the home of P. C. Papineau. One of the leading speakers claimed that alcoholic drinks are an indispensable beverage. Some of those present wish he would explain a little better his remarks.

We understand Thomas Bros. have nearly finished their large jobs of sawing. They have had a large demand for their lumber, not being able to nearly supply the demand.

Fullerton-Fawcett Lumber Co. have finished landing their logs on the lake. Mr. Fullerton is going to the Capital city this week on business.

Settlers can hear the hum and toot-toot of Mr. Papineau's saw mill these days.

Mr. Robert Shannon is visiting Mr. Eastman and family at the lake.

HOSPITAL MEETING

A public meeting was held in the council chamber on Monday evening, for the purpose of receiving the report of the committee appointed at last public meeting re the conference with the Scandinavian Hospital Board. Mayor Fowler was in the chair and E. Roberts was secretary protem.

F. E. Kelley, on behalf of the committee submitted the report, which was unanimously adopted. The report was as follows:

"Your committee begs to report that a conference was held with Messrs. Olin and Toreson, who had been appointed as a committee by the Board of the Scandinavian Hospital, on Monday, April 10th These gentlemen reported that the matter had been looked into by their board and that they were deputed to report as in favor of amalgamation, were it found possible to effect such on terms satisfactory to the present hospital board. Mr. Toreson presented a statement of assets and liabilities of the present institution as follows:

Assets	
Outstanding accounts about	$1000.00
Furniture, etc., estimated at	700.00
Government grant earned up to April 1st, 1911	272.50
Total	$1972.50

Liabilities	
Imperial Bank	400.00
Building fund	500.00
Asp Bros.	100.00
Total	$1000.00
Estimated surplus	972.50

It was thought by the committe that about 75 per cent of the out standing accounts were collectable.

The terms which the Scandinavian Hospital Board think reasonable in merging their hospital with a civic institution are as follows:

1.—That the Board of the new institution assume the liabilities of the present hospital as outlined above said hospital to hand over book accounts and equipment and grant earned to April 1st, 1911.

2.—Present building to be used until September 1st, 1911, when lease expires.

Messrs. Torcson and Olin expressed their willingness to serve on the new hospital board, and Mr. Olin has since learned that at a paltry cost the present charter can be transferred to the citizens institution by the mere change of name.

Respectfully submitted.

H. J. Montgomery, F. E. Kelley Rev. E. McGougan, committee.

After discussion the following motion was carried. Dr. Walker—E. Roberts—That the same committee that had interviewed the Scandinavia Hospital Board be appointed as committee to bring the matter of civic hospital before the city council at its regular meeting on Tuesday night.

F. E. Kelley reported that a cement house could be procured for $1,500 which might be used as a hospital.

Moved by E. Roberts, seconded by Dr. Walker—That a hearty vote of thanks be given to the committee which had carried on the negotiations with the Scandinavian Hospital Board for the able manner in which the matter had been handled.—Carried.

Moved by ex-Mayor Montgomery seconded by Rev. E. Mr Gougan — That a hearty vote of thanks be given to the representatives of the Scandinavian Hospital Board, for the friendly spirit in which the matter of amalgamation had been discussed by them.—Carried.

Meeting adjourned.

GOPHER POISON

The gopher nuisance is being recognized by many of the local improvement districts of Alberta and in several districts strychnine is being distributed free to the ratepayers.

The following is a popular receipt for preparing gopher poison.

Dissolve one ounce of strychnine in two ounces of acetic acid, add a quart of molasses, a tablespoonful of oil of anise and sufficient water to moisen three pecks of wheat or sixty pounds of chopped grain. If wheat is used, the mixture should be poured over the grain, and enough fine meal added to take up all the moisture and adhere to the grain. The mixture should be allowed to stand over night before distributing. Extreme care should be exerrised in the distribution of the poison, to see that it is placed so that other animals and birds will not be poisoned. The poisoned grain should be placed deep down in the gopher holes with a long handled spoon and under no circumstances should it be scattered around on the surface of the ground.

As gophers will invariable leave a poisoned area, it is necessary to set poison in an entire district at the same time in order to get results. Now is the proper time to set out poison before the gophers begin to breed.

BECAME SO WEAK AT TIMES COULD NOT WORK.

Mrs. George Hiles, Grimsby, Ont. writes:—"Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I suffered greatly with my nerves and became so nervous and weak at times I could not work. A friend of mine advised me to try a box of your pills, which I did, and soon found great relief. They are the best medicine I have ever taken for the heart and nerves. I recommend them to any one suffering from heart or nerve trouble.

Milburn's Heart and Nerve Pills make the weak heart strong and the shaky nerves firm by insuring a strengthening and restorative influence to every organ and tissue of the body and curing palpitation of the heart, dizziness, sleeplessness, anaemia, twitching of the muscles, general debility, lack of vitality, etc.

PROVINCIAL CROP REPORT FOR 1910

The official crop report for the province of Alberta, which has just been completed, shows that the province has been tested in the worst of times and has been found to be very good.

Despite the fact that the year was the very worst in the history of the province, the average crop was very good. The crops in the south were pretty poor, but not worse than the crops in the south of the other provinces or in the states across the line.

The average crop in the north was much better. Altogether the average crop was not only greater than in the other states and provinces, but greater than the average in the states which are near to Alberta.

The crop yields given in the bulletin of the Department of Agriculture are compiled by the statistics branch from returns made under the Threshers' Lien Ordinance, by the owners of the Threshing machines throughout the province, and are the most authentic which could possibly be made.

A striking feature of the report is that by far the biggest yield of winter wheat recorded was in the Athabasca district, which lies north of Athabasca Landing. Here, 11 acres on one farm produced 585 bushels or an average of 45 bushels per acre. This was the largest yield of wheat of either spring or winter variety, in the entire province. Nearest to this in winter wheat came the Stony Plain district, where fifteen fields, owned by as many farmers, gave an average yield of 34.92 bushels per acre. Strathcona was a close second with an average of 34.93 bushels per acre. St. Albert district gave the biggest yields in spring wheat. Thirty three farmers, from 177 acres, threshed 6,385 bushels or an average of 36.07 per acre. The biggest yield of oats was also in the St. Albert district, 129 farmers from 5,533 acres, threshing 297,591 bushels, or an average of 52.34 bushels per acre.

The crop bulletin of the department states that not in many years has the winter wheat entered the winter in such fine conditions as has the crop for 1911. The young plants were well protected during the winter and at the present time are in a most promising condition. It is estimated from the returns of crop correspondents that fully 200,000 acres were seeded last fall. This is stated to be a conservative estimate, as some competent authorities believe that there is fully 225,000 acres seeded.

Below is given the total yield for the year:

Spring wheat	5,597,956
Winter wheat	2,206,564
Oats	12,158,53
Barley	1,889,509
Flax	46,45
Rye	28,306

For the first time the department of agriculture makes an effort to compile the live stock. The figures are given as follows:

Horses	254,200
Dairy cows	94,100
Beef cattle	113,100
All other cattle	445,000
Total cattle	632,200
Swine	171,400
Sheep	155,203

HOW THE DANGER CAN BE AVOIDED

If the agreement for reciprocal free trade between Canada and the United States in agricultural produce is carried into effect the arrangement will it is understood, automatically carry with it provisions for free trade between Canada and New Zealand in the same products. The fear has been expressed in some quarters that, with this done, New Zealand butter and cheese will flood the Canadian market and prevent the advance in prices here which should follow the opening of the American market to Canadian dairymen.

All danger from this source can be easily obviated. Butter from the Antipodes can reach Canada only by one of two routes. One of these routes is formed by the regular lines of steamers running from Australia and New Zealand to England and connecting with other regular lines from England to Montreal. The other route is by the direct line of ships from Sydney to Vancouver making connection with New Zealand. This line receives a subsidy of $180,000 a year from the Dominion Government. If the subsidy were cut off the line would cease to operate and no New Zealand butter would enter Canada by way of Vancouver. We need not greatly fear the competition of any of this same butter which is first shipped to London and then reshipped by another line to Montreal.

EMMANUEL CHURCH

The new font subscribed for by the girls of the bible class, of Immanuel church, Wetaskiwin, arrived on Saturday last and has been greatly admired by the congregation. It is of solid oak, the basin holder being octagonal in shape, each of the eight panels embossed in floral design, and the cover is gothic in design, surmounted by a carved cross. The font is supported on a solid pillar rising from an ornamental base, and the basin is of silver.

Easter-day opened at Immanuel church, Wetaskiwin, with an early celebration of the Holy Communion, the altar being beautifully decorated with a magnificent display of white flowers and the chancel was ornamented with a large collection of flowers and ferns. At eleven o'clock there was a full choral service and a second celebration of the Holy Communion, at which Woodward's Communion Service in D was sung. In the afternoon there was a children's service and catechising, at which the children's Lenten offerings for the Missionary Society of the church of England in Canada were made, amounting to $12.90. Choral even song was held at seven-thirty o'clock. All the services were largely attended. The Rector, the Rev. Dr. Coard, preached at each service and intoned the prayers. Special Easter hymns were sung and heartily joined in by the congregations. The evening service next Sunday (Low Sunday) will be choral, with Easter music.

The Lenten offerings of the children of Immanuel Church of England Sunday school, were presented at a special service on the afternoon of Easter day, and amounted to $12.90. Each child delivered its offering at the chancel step, the Rector being assisted in receiving the miss onary pyramids by Master Gordon Wilkins. Miss Wilkins presided at the organ. The Rev. Dr. Coard delivered a short address on the "Resurrection," and then catechized the scholars, who showed a remarkable aptitude in replying to questions concerning the Saviour's Passion and Resurrection, reflecting great credit upon their respective teachers.

On Easter Sunday afternoon the Rev. Dr. Coard administered the Sacrament of Baptism, at Immanuel church, when Camilla Sophia, the infant daughter of Mr. and Mrs. Martin Marker, was christened in the presence of a considerable number of the congregation. The sponsors were the parents and Miss Elna Nielson, who recently arrived in Wetaskiwin, from Copenhagen, Denmark, and is guest of her uncle and aunt, Mr. and Mrs. Martin Marker. This was the first baptism in which the new font was used.

APRIL ATHLETIC WORLD

The April number of that interesting Canadian publication "The Athletic World" has just reached this office. A persual of its pages and a glance at the many illustrations give free proof that in the covering not only of Canadian but also of universal sports and general pastimes, this magazine is more than fulfilling past promises and marked out a future of certain and unqualified success as a national periodical for Canadian followers of sports of all sorts.

THE FARMERS CO-OPERATIVE STORE TO BE ERECTED IN THE NEAR FUTURE

It has been going the rounds that the city people have a feeling against the co-operative movement, started by the farmers of this district but the list published herewith will prove the contrary, as these gentlemen certainly have the cause at heart, and all have subscribed stock for the same. As the list grows it will be published from week to week.

The following have taken stock in the Co-Operative Store, Limited, during the past few days:

COUNCIL PROCEEDINGS

The regular meeting of the City Council was held in the council chamber on Tuesday evening with all present except Ald. Olin and Angus.

Minutes of previous meeting read and adopted.

Mr. Bether addressed the council re the matter of herding cattle this summer. After a general discussion it was moved by MacEachern — Ellis — That Mr. Bether be given permission to use the streets from 7 to 9 a. m. and from 5 to 7.30 p.m., for the purpose of driving the cattle to and from pasture.—Carried.

A communication from the Provincial board of health was filed.

Harry Whitehead, chief of the fire brigade, wrote suggesting many changes in his department. After a brief discussion, on motion of Wagner — MacEachern—The letter was referred to the fire water and sewer committee to bring in recommendations at next meeting.

The next question considered was that of the civic hospital. Ex-Mayor Montgomery, F. E. Kelley and Rev. E. McGougan, a committee from the hospital meeting addressed the board. They stated that the meeting they represented was disposed to regard the proposal of the Scandinavian Hospital Board re the matter of amalgamation as reasonable and recommended **that the municipal council accept the terms, if, after investigation, they be found satisfactory. (The terms of the Scandinavian Hospital Board** are found elsewhere in this issue.) The committee also states that they were instructed to recommend to the municipal council that they devise ways and means for the establishing, maintenance and regulation of a civic municipal hospital incorporating interests of the present Scandinavian Hospital, and taking into account the terms of amalgamation proposed by the board of that institution.

After a short discussion His Worship suggested that a committee be appointed to get information from other places where municipal hospitals are conducted. It was then moved by Ellis—Chandler—That the Mayor appoint a committee of three to confer with the citizens' committee, to get information from other places and to bring in a recommendation at next meeting. His Worship appointed Ald. Chandler, Wagner and Ellis as the committee.

A petition was presented from the W.C.T.U. praying that the council establish a curfew bell for the city. On motion of MacEachern—Chandler—The matter was referred to the clerk to confer with the solicitor as to the legality of the petition. Carried.

Ald. Ellis reported that the committee had ordered a car of coal from Bradley & Smith, at the rate of $2.25 a ton, and if this was satisfactory a contract for the year's supply would be entered into.

Ald. Olin and Angus, the special committee appointed to go to Edmonton re sewer disposal matters made their report, which was to the effect that the Provincial Board of Health would approve the system advised by the Galt Engineering Company, but that Dr. Owens, the Provincial Health Officer has a system which was much cheaper, and which he claimed was equally as efficient. On motion of MacEachern—Ellis—The matter was referred to the fire water and sewer committee to bring in a recommendation at next meeting.

Secretary-Treasurer Roberts, suggested that the city offer for sale the balances of the sidewalk debentures, when it was moved by MacEachern—Chandler—That advertisements be inserted in the Monetary Times and Financial Post for the disposal of $56,000 worth of debentures.

Ald. Ellis then brought up the matter of street sprinkling for this year, and moved, seconded by Ald. Wagner, that Mr. Crane be authorized to have the sprinkler brought over from the building on the fair ground to the lot adjoining the fire hall, and that he be empowered to have the streets sprinkled this season.—Carried.

Meeting adjourned.

FIRST BAPTIST CHURCH

The Easter Cantata "The King of Glory" will be given this Friday evening by the Sunday school. The programme is excellent and a large attendance is anticipated. A silver collection for Sunday school purposes will be taken at the door.

The series of sermons on "The Parables of Jesus will be continued on Sunday night with a sermon on "The Parable of the Rich Fool!"

Mrs. P. J. O'Nicl and son, of Calgary, who have been visiting at the home of Mr. and Mrs. D. J. McKitterick, returned home on Tuesday.

THE LATE MRS. WYLD

It is with deep regret we record the death of Mrs. Wilhelmina Henrietta Wyld, relict of the late Richard Charles Wyld, one of the original pioneers of the Wetaskiwin district. On Monday of last week, Mrs. Wyld, in the apparent enjoyment of good health, came to Edmonton to spend a few days with Mrs. Hayes, with whom one of her daughters is staying. In the evening Mrs. Wyld and Mrs. Hayes attended a concert in the Capital, and appeared to be in her usual jovial mood. Later on, however, she complained of internal pains, and medical aid being secured, she was removed to the hospital, and after thorough examination an operation was decided upon, when it was discovered that she was suffering from cancer in the bowels. The cancer was successfully removed and the patient recovered quickly from the chloroform, but the shock to the system had proved too much, and her medical attendant "phoned for the presence of her five children, who were at their Wetaskiwin home. They at once proceeded to their mother's side and remained with her until the end. Mrs. Wyld passed away on Easter Sunday evening.

The late Mrs. Wyld was born at Port Elgin, Ont., 44 years ago, and came with her late husband to this district nineteen years ago, becoming the first white settlers in this community. They had the distinction of taking up the first homestead in this district, locating on the property now known as the Riverside Farm, on the Battle River. Her husband pre-deceased her six years ago. She leaves a family of four girls and two sons to mourn her loss, namely, Charles, Dolly, Gretna, Marion, Margaret and Harry.

At Immanuel church, Wetaskiwin, the rector on Sunday morning offered special prayers, for her recovery and in his sermon in the evening asked both the public and private prayers of the congregation on behalf of the bereaved children, two of whom belong to the choir and two to the Sunday school. The funeral took place on Monday evening, immediately after the arrival of the south bound train. A large crowd occupied the station platform as the funeral party arrived, and the church was filled with representatives of every congregation in the city as well as of the various public bodies of Wetaskiwin. The coffin was covered with a profusion of flowers, and on its arrival at the church, Mrs. McManus placed upon it an offering of Easter lilies and other flowers on behalf of the Parish Auxiliary and Mrs. Millar placed beside it her personal offering of flowers. The service in the church was choral, bodies from other choirs in the town taking part in the choir. During the period of waiting for the procession, Mr. E. D. H. Wilkins, who presided at the organ, played a number of appropriate voluntaries. The body was met at the door by the rector, the Rev. Dr. Coard, who read the beautiful opening sentences, and on reaching the chancel, read the 95th Psalm, after which was beautifully sung "Brief Life is Here Our Portion." Then came the lesson (I. Cor. XV-20v. to end,) after which was sung "Jesu, Meek and Gentle, Hear Thy Children's Cry." Prayers for the bereaved were then read, and the service in church concluded with a most feeling rendering of the hymn "How Bright Those Glorious Spirits Shine!" The procession then re-formed and proceeded to the cemetery, where the remainder of the service was conducted by the rector, the coffin being laid in the family grave to await the final Resurrection morn.

The pall-bearers were all old-timers Messrs. Geo. D. Wallace, Sheriff Dickson, E. Nunneley, D. A. Ward, Geo McManus and Dr. Walker.

Wetaskiwin Lodge No. 8, I.O.O.F., will celebrate the 92nd anniversary of the order by attending Divine Worship in the Presbyterian church, on Sunday afternoon, April 70th, when Rev. E. McGougan, B. A., will preach. All Odd Fellows in the community are invited to join the celebration.

Contracted a Heavy Cold.

It Became a Lung Splitting Cough.

Mr. J. H. Richards, 1852 Second Ave. East, Vancouver, B.C., writes: "Allow me to write a few lines in praise of your Dr. Wood's Norway Pine Syrup. Last fall I contracted a heavy cold which left me with a hacking cough and every time I would get a little more cold this hacking cough would become a lung splitting one. It kept on getting worse and I kept on spending money buying different cough remedies until a friend asked me if I had ever tried Dr. Wood's Norway Pine Syrup, as I told him I was willing to try anything I thought would cure, and on the same day bought two bottles. Before half the first one was used my cough began to get much easier, and by the time I had used a bottle and a half my cough was gone. I am keeping the other half bottle in case it should come again, but I am sure I have a positive cure. Let me recommend Dr. Wood's Norway Pine Syrup to all who suffer from a cough or throat irritation of any kind."

So great has been the success of this wonderful remedy, it is only natural that numerous persons have tried to imitate it.

Don't be imposed upon by taking anything but "Dr. Wood's."

Put up in a yellow wrapper; three pine trees the trade mark; price 25 cents.

In Three Accidents!

It would seem that Zam-Buk, the famous healing balm we hear so highly spoken of everywhere, is particularly useful in the family circle. A report sent by Mrs. E. Davey, 786 Ellice Ave., Winnipeg, will illustrate this. She says: "My little boy, of three, while playing, fell from a high verandah to the ground, cutting his forehead badly. Instead of calling a doctor who would undoubtedly have put in a number of stitches, I bathed the wound well, and applied Zam-Buk. The little fellow, although suffering keenly, soon had relief from his pain. In the course of three weeks, by applying Zam-Buk daily, the wound was nicely healed.

"Since then I have also used Zam-Buk for a boil which came on my cheek, and which proved very painful and looked unsightly. Zam-Buk soon drew the boil to a head and it then quickly banished it.

"Another time my baby was scalded on her left thigh and calf of leg with boiling water. Directly it was done I thought to use Zam-Buk, and spreading some on lint I wrapped up the baby's limb. Next morning she rested much easier and I applied a fresh bandage with Zam-Buk. I kept this treatment up daily, and was rewarded by seeing a great improvement each time I dressed the wound. In a very short space of time the scalds were all nicely healed.

"I cannot recommend this wonderful healing preparation too highly for family use, and I have such great faith in its healing powers that my house is never without a box."

For all skin injuries and diseases, piles, eczema, salt rheum and face sores, Zam-Buk is absolutely unequalled. 50c. box all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. Try Zam-Buk Soap too! Only 25c. tablet.

SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS

ANY person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or his father, mother, son, daughter brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts Price $3.00 per acre. Duties — Must reside six months in each of three years, cultivate fifty acres and erect a house worth $300.00.

After supper to-night, take a brush and apply

Stephens VARNISH STAIN to your dining room table. In the morning you'll scarcely recognize the beautiful, smooth, glossy table as your former dingy, scratched one of the night before. This requires very little work. It is much easier to do than you'd think, and the results are so pleasing and so surprising that you will never regret spending the little money it costs.

"TWO FRESHIES" but it's easy to see who got the better of it. Of course the boy downed the fresh bread, as do all our customers who patronize our MODEL BAKERY where only the very best bread and cake is baked of the very purest and most wholesome flour. Our good facilities to turn our excellent bread and cake enable us to add to quantity. Try our baking. You'll like it.

Was Troubled With
Liver Complaint
For Three Years.

Milburn's Laxa-Liver Pills will regulate the flow of bile to act properly upon the bowels, and will tone, renovate and purify the liver, removing every result of liver trouble from the temporary but disagreeable headache to the severest forms of liver complaint.

Mr. S. Nelson, North Sydney, N.S., writes:—"I have used your Laxa-Liver Pills. I was troubled with liver complaint for three years, and could get no relief. I was persuaded by a friend to try your remedy, and after taking one vial I got relief. After I had taken three more I was cured completely, and I have not been troubled since, thanks to your valuable medicine."

Milburn's Laxa-Liver Pills are 25 cents per vial, or 5 vials for $1.00, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

NEW INVENTION

One of the most useful articles yet brought to our attention is about to be placed on the market by W. Pullyblank, of this place, now an employee of the Revelstoke Sawmill Company, Limited. It is to be called an automatic draft stopper for doors and is duly protected at the patent office at Ottawa, while similar protection will be sought for the United States. The article may be attached to the lower part of any door and as it will be made of light malleable iron and may be painted the same color as the door will not be unsightly. A strip of felt or rubber will be used to fit tightly against the sill but the opening of the door causes this to rise far enough from the floor so as to swing clear of it. The closing of the door again brings the felt or rubber tightly in contact with the sill. A complete model is being sent to an Ontario manufacturer for his inspection and to secure an estimate on their output. We wish the inventor every success in the introduction of such a useful article.—Daysland Press.

We guarantee complete relief to all sufferers from constipation. In every case where we fail we will supply the medicine free.

Rexall Orderlies are a gentle, effective, dependable and safe bowel regulator, strengthener and tonic. They re-establish nature's functions in a quiet, easy way. They do not cause any inconvenience, griping or nausea. They are so pleasant to take and work so easily that they may be taken by anyone at any time. They Thoroughly tone up the whole system to healthy activity.

Rexall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. Two sizes, 10c. and 25c. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store. H. L. Higgs.
